

SPIN

Cutting edge design and Powerful performance, World-Class technology for a perfect slush.

WHY SPIN?

Spin represent a new generation of machines ready to prepare and serve the best Slush and frozen cocktails.

The perfect transparent and asymmetric bowl with two different areas not only ensures a **better product mixing** but also expose the product in movement drawing clients attention to **enhance impulse buying**, the exclusive mix system also avoids the formation of ice crystal generating a incomparable product consistency.

Spin is equipped with the ergonomic Push&Pull tap providing easy product dispensing in two different ways. Thanks to its locking system **can be removed with just one hand** and it is not necessary to disassemble all components for cleaning.

Manufactured with robust stainless steel panels and stylished plastic parts Spin features a cutting and corrosion resistance to ensure **many years of service.**

Can also be placed in maintenance mode during off hours to **save a considerable quantity of electricity** and keeping the product cold and regrigerated.

WHAT CAN IT MAKE?

- SLUSH
- COLD DRINKS
- FROZEN COCKTAIL
- SORBETS

FEATURES

Fast Freeze Technology

Quality mixing

Higly Customizable

Push&Pull tap

Great potential for impulse buying
